   ![Login Detailed Image]

3. Upon sign in, customer is redirected to the secure message.

   ![Message Image]

   This is a new secure message being sent to a secure messaging customer.

Secure Messaging through northwestfcs.com

Protecting the safety of your personal information is critical. To increase the security of your data Northwest Farm Credit Services has implemented a secure messaging system through northwestfcs.com for your account communications.

This system is available in conjunction with electronic balance sheets accessed through your northwestfcs.com online ID.

How it Works

Each time Northwest FCS sends a message in your Secure Messaging inbox, the system will send a notification to your personal email address with a link to northwestfcs.com. You can then log in to access the message. When you reply to the message or create a new one, you can also upload documents. Messages and attachments will go directly to Northwest FCS staff without leaving our secure environment.

If you don’t have a northwestfcs.com member account the system notification will prompt you to create one. Once you’ve created an account, you can use the same login for future messages from Northwest FCS.

Contact your Northwest FCS relationship manager with questions about this feature.
Secure Messaging Experience
For customers without a northwestfcs.com member account.

1. Notification sent to customer’s personal email address. Click link to northwestfcs.com secure messaging sign up.

   Hello 1
   
   You have received a secure message from John Smith at Northwest Farm Credit Services. To view your secure message you need to create a member account. Please click here, (or copy the link to your browser) to create your account.
